As A Newspaper

NEWS is news in THE GLOBE without regard to the race, creed, or political beliefs of

the parties concerned. This is one of the distinctive features that has given THE GLOBE the right to the title "Canada's National News-paper." The idea that a party paper must necessarily allow the use of its news columns to reports of the political doings of one side only,

does not apply to THE GLOBE.

Impartiality care, and thoughtfulness mark THE GLOBE's handling of news. To no other paper in Canada does the saying "all the news that's fit to print" apply with such truthfulness as to THE GLOBE.

As An Advertising Medium O live Canadian business man

can fail to notice the extent to which the industries from the neighboring Republic are crowding into Canada with their branch factories, branch stores, etc.

Advertising is the surest weapon with which to anticipate or to meet this competition. Newspaper Pub-licity will do for many a business what tariff and travellers have failed to do.

THE GLOBE during the past sixty-six years has helped hundreds of business men to success.

# Oak Hall,

# It's "Kettledrum" Blend

This name, submitted by Mrs. MacCuaig, of the Victoria Ave. Tea Room, has been chosen for the new Blend of tea we are introducing.

In England when a lady is giving what we call in this country—A "Five o'clock Tea," It is said Lady So and So is, giving a "Kettledrum," hence the meaning of the word.

Hereaster it will be used exclusively in the Kettledrum Tea Room on Victoria Ave. Any person who had not the opportunity to sample this tea during our demonstration, may have it served daily at this popular resort.

We know a great many already who think this is the best tea sold in Belleville at 40c per lb.

During the demonstration we have never mentioned "Tea Checks," we wanted the tea to win on its merits and it has, as does every other

win on its merits and it has, a sacrable Blend we sell.

BUT with each lb. of this tea you receive a tea check, which is worth 8c to you in goods. This excellent tea, therefore, only costs you 32c per lb.

in regard to the matter are some-what peculiar.

The work of electifying the pump house would take three months.
One company, it seems, has made an offer to instal an electric ser-vice at the pump house, and supply electric energy at a stated figure, but declines to enter upon the work unless given a contract for a term of years. The statute does not allow a Council to give a contract for over 12 months unless the matter is submitted o the people

Taking the above facts into considera-tion, and taking into consideration the additional fact that, before long, tenders may be received from other power companies, there seems, as above stated, no good reason why the Council should be in a hurry. no shern comments Some sharp comments upon the Canadan aral plan appear in the 1910 issue of Brasser's Neval Annual, one of the highest authorities in Great Britsin. It says: "The plan that has been adopted with regard to the Australian mint is probably the best that could have been devised to meet Australian onlying, and it is

too pest that could have been devised to meet Australian opinion, and it is to be hoped that Canada will in time come into line and take a larger view of her responsibilities. It is im-probable that either Australians or Canadians have any idea of the cost-liness of the undertaking to which they are now committed II their lo-cal navies are to be kept efficient." cal navies are to be kept efficient."
A chapter is contributed on "The Dominion and Local Defence," by a well known writer, Commander Charles N. Robinson, late R. N. He also praises the Australian scheme a far in advance of the Canadian, which he treats with thindy safer explainment, For example, after explainment of the factor of the factor we may picture a feet in which are representative ables from Australia, New Zeater Scholl, and the factor we may picture a feet in which are representative ables from Australia, New Zeater Scholl, and the factor of the factor was made and the school of the factor we may picture a feet in which are representative ables from Australia, New Zeater Scholl, and the school of the factor of

pictura a feet in which are represen-tative ships from Australia. New Zea-land, perhaps Sonth Africa, and po-sishly India, as well as from the Old Country-a fleet partly Imperial and partly Dominior-words, but with one discipline, one organization, and one flag: a fleet of eight or ten cruting autifaction, with their auxil-izate, which would make periodical with to the ports of each empire represented in its composition. These represented in the composition. These not come into being during the next force of five verse of the Dominion. four or five years if the Dominion

scheme is dismissed with contempt.

One writer hopes that Canada may work up to the Australian standard, and another enumerates Australia, little New Zealand, the new South African Dominion and India, and African Dominion and India, and does not once mention Canada. Also we are warned that the naval force, which is not regarded as worth counting among the Empire's assets, will be very costly.

#### A Bear Story

Mr Wm. Moore is the here of St. vis., in Friday he was going through the sush when he atumbled upon a big slack bear struggling frantically to free teelf from a trap. It was making thingspeerally lively and William calculated must hustle and hustle he did. Long he must hustle and hustle he d'd. Long boat could not have kept within gun shot of him. He ran six miles in '49 mis utes to gee a gun with which he de pratched Bruin.

FIT-

### First In The Field And Foremost To-day

Fit-Reform originated high class, hand-tailored garments in Canada, just as Fit-Reform to-day originates the styles that Canadian gentlemen West.

Most of the well dressed men you see on the street, carry the Fit-Reform trademark in the inside pockets of their coats.

These men know, by careful companson, that there are no other garments made in Canada to-

day superior to those perfected by the Fit-Reform system.

Fit-Reform has always been first in offering better styles, better tailoring, better values than it is possible to obtain elsewhere for anything like the same money.

Fit-Reform was always—and is to-day the first and foremost in the realms of high class tailoring.

We are showing the very latest creations in Fit-Reform Suits—the choicest of the season. \$18 to \$35.

Double cooking top; no "stooping" necessary while cooking or baking Model II is a new 1910 style of gas

Model II is a new 1910 style of gas range. It will soon achieve great pop-ularity. With Model II you can cook a meal with the greatest ease and con-venience. You will never be crowded for room. The cooking top is double size—equal to eight burners and a sim-mering burner. And just note the de-oversient location of the baking and present the cooking to the cooking any whereas the cooking out plex-cakes, tests, etc.

cakes, steaks, etc.

The broiler and drip pans are smoothly coated with white enamel. You can wash and clean them as thoroughly as you can an enamelled sauce pan. You can change the over from a circulating to a direct action oven by simply moving a slide.

THE HYGIENIC CUSHION FRAME.—If there is one invention more than another in the bicycle line that has helped to popularize wheeling, it's the Hygienic Cashion Frame. "Makes all roads smooth" is the slogan that carried it to popularity and it has lived up to the advance notice. The Cushion Frame gives "Pullman Comfort" bicycling.

## Who Pays for the Advertising?

Wou'dn't you prefer if you had a clothing store to sell a hundred suits of chthes in a day making an average profit of \$2.00 per suit, to selling ten suits in a day, with an average profit of \$5.00 per suit?

Who would be "taxed" for the advertising?
Your pations? Searcely—when they pay
you \$3.00 less than they would have to pay for
the ideatical suits to the merchant who does
NOT advertise.

You? Scarcely—when you make a great deal more money than you would if you "saved" your advertising appropriation.

Your non-advertising competitor—in the penalty he cays for not doing so arge s volume of business as he COULD do by advertising, and taking a smaller per-cale profit?

That's it - precisely !

# Who Pays for the Advertising?

Wouldn't you prefer if you had a clothing store to sell a hundred suits of cluthes in a day making an average profit of \$2.00 per suit, to selling ten suits in a day, with an average profit of \$5.00 per suit?

Suppose that, to sell the hundred suits a day you should spend, say \$20.00 per day in advertising.

Who would be "taxed" for the advertising?
Your pattons? Scarcely—when they pay
you \$3.00 less than they would have to pay for
the identical suits to the merchant who does
NOT advertise.

You? Scarcely—when you make a great deal more money than you would if you "saved" your advertising appropriation.

Your non-advertising competitor in the castly he says for not doing so argo volume f business as he COULD do by advertising, nd taking a smaller per-sale profit?

That's it,-precisely!

The Laurier Government a singular appointment which is causing a good deal of stir. One of the best and most responsible posi-tions in its gift is that of Trade Comary is \$3000 a year and expenses. The holder is the representative of Can-ada in a dominion of the British Em-pire, and assuredly should be a per-son of standing and high reputation. The person selected for this post is W. A. Beddoe whe edited newspapers on both sides of politics in the Yu-ton for some years. It was his los-ton for some years. It was his losto our since of positics in the Ya-kon for some years. It was his let-ter, by extravagant untruthfulness, which earned the attention of the House of Commons last session; the Conservatives drew the notice of the House to the fact, among others. that he said that the Tilpromoting and the Conseratives wer attacking the Miller Bill, wherea Conservatives were among its warm supporters and the principal opposi-tion came from two Liberals, Hon-Mr. Aylesworth and Mr. McColl. On this occasion the Liberals attempted no defence of the letter. It was he who, in the columns of the Oainawa Reformer, attacked the personal

In this, the airship age, old meth is are lost sight of.

mmercial progress is sweeping to it obstacles not long since ght to be insurmountable and here on the face of the earth is condition more strikingly illus-id than in Western Canada.

The fears of the pioneer have been ispelled, his greatest bopes are bout to be realised. The spirit of rogress is rampant all over the rest, opportunity is fairly slapping he laggard in the face.

Money is pouring into Canada. This money seeks investment, a great deal of it slong the lines of the Grand Trunk Pacific Prairie Division. Edson, a Grand Trunk Pacific Principolita is the destination of thousands of obliars. And the Managham of the Canada—with thousands of obliars. Read what the Edmonton "Town Topics" are about it.

## Madam—This Delicious **Dessert Saves Time**

Instead of spending hours over a hot stove preparing dessert, try Mooney's Sugar Wafers. Their deficious flavor will surprise and please the whole family. It cost us thousands of dollars and took years to perfect this dainty. Taste it once and you will say that both time and money were well spent.

Here are just three of many reasons why you should at least try Mooney's Sugar Wafers. First—their delicious spicy and appetizing taste. Second—it takes no time to serve them—they are always ready—always good. Third—they cost but little.

Mooney's Sugar Wafers Canada's Most Popular Dessert

Mooney's Sugar Wafers are made in the finest bakery in the country. We use noting but the best ingredients. Our four is a special blend. Our butter and cream are from the finest dairies in Western Ontario. We get the best because we pay top prices. Then there is the incomparable Mooney Method—the Method that gave to the Dominion, Perfection Cream Sodas—the standard soda enrolled. The same high quality standard that has made ours the faceting many business in Canada goes into our greatest creation—Mooney's Sugar Wafers.

At your procer's, in dainty, dust and damp-proof tips, 10 and 25 cents. Try them today

This is a picture of the sensible, healthy car-free man. He avoids the crowded street cars at rush hours by using a bicycle to and from the office. And in doing that saves the price of car fares and gets the exercise the doctor says we all require

And this car-free man uses a wheel that makes his going absolutely pleasant-A wheel with the hygienic cushion frame and Hercules Coaster Brake and Sills Handle Bars--Brantford.

THE HYGIENIC CUSHION FRAME.-If there is one invention HTHERNIC CUSHION FRAME—It there is one invention, more than another in the bicycle line that has helped to popularize, wheeling, it's the Hygienic Cushion Frame. "Makes all road, smooth," is the slogan that carried it to popularily, and it has lived up to the advance notice. The Cushion Frame gives "Pullman mfort" to bicycling.

## The "Greater" Cleveland

"Do You Recognize the "There are many good roads to health. The man who tra-vels over one of them on a bicycle, using moderation and common sense, will most likely reach the goal." ALBERT 'P. LANGTRY, Editor, "The Springfield (Mass.) Union." old-time poster of the Cleveland bicycle? This was the banner that heralded 'bicycle-age.' It is in front today in the big bicycle revival."

Though heat will make a solid or a iquid incand-cent, it can only increase the pressure of a cas.

And it stands to-day, just as of some years ago, for the best there is in "Bicycle, dom." It is as far in advance now as then, because it represents the "last word" in bicycle building. Cleveland has all the comfortgiving features that have made modern wheel ing pleasant. It sells at a price that must be asked for an honestly made bicycle.

THE HYGIENIC CUSHION FRAME. -If there's one invention more than another in the bicycle line that has helped to popularize wheelings it's the Hygienic Cushion Frame, "Makes all roads smooth," is the slogan that carries it to popularity, and it has lived up to the advance notice. \$1,000 for a Gat of Paint

It seems hard to believe, yet that is the sum of money that a coat of Matin-Seem Paint 100f, Pare added to the selling price of a certain house. For several seasons, a shabby weather-beaten house had been offered for sale. There were no buyers until a shrewd real estate broker purchased the property and, with a single coat of paint, magically changed it from a shabby house to that of a home of dignity—a home of comfort and elegance, furthermore, to sold it within a very short time clearing \$1,000. We are impatient to see you and you of all that has befallen us co we left Wabash—how many ra ago? Edith sends her love. Let have a line by return, agring when Ahl call upon you. I am, my dear Ahan, what every kind wish, PAUL WESTERINE.

The letter fell from his trembling hands. He remembered the name: Alan Wayne had often spoken of his od playfellow, Ditth.

No wonder through the shift his of the traiter three came a cry for help—help in his board of help.

CHAPTER XXIII.

Sir Alim Aynaley as to some few minutes after the perual of the fatal letter, stunned and motionless. Here was a deep pit yawning underneath his feet a pit he had never seen shadowed forth even in his dreams.

He took up the second letter, recogning the handwriting of Lady Blanch. He reed:

Many people have wondered why the closing exercises of a college year are termed "commencement exercises." It is thus explained: Dur word "commencement," which designates the last, instead of the first, day of the college year, is derived from the circumstance that graduates of Ox-ford University, England, were authorized to commence the practic of their professions when they re-ceived their degrees on commemora-tion day. That was the "commence ment" of the professional carears of doctors, lawyers, elergemen and other graduates, and thus who sounds like an Irush bull is really a

### You Want Biscuits Shipped in Private Cars

We use none but the choicest ingredients. We get the best because we pay top prices. Then they are baked by Canada's master bakers in the largest sunlit sanitary factory in the country.

But we don't stop with making the finest soda cracker—we go further.

Every package is shipped in our own private cars. The cars are specially made so an even temperature is maintained. We are the only makers to go to this trouble and expense.

It's expensive, but better for the biscuits.

They arrive at your table fresh, flaky and delicious. And they cost no more than common kinds.

AS A NEWSPAPER.

The flobe wands for some-thing in politics and through-out the year pays a lot of at-tention to politics—not par-tnambly, but politics. It is above all things is a new-paper. It has never been afraid to give the other man's version, and has not afraid to give the other man's version, and has not included the properties of the man's version. The state of the man's version and has not partially and the properties of the man's version. That is another reason whe The Globe is Can-alde National Newspaper.

A large percentage of the rales made over the counter are the results of impressions. Are you as a business man creating impressions faverable to your goods? Frequently the man who thinks he nerve reads adverting a safety-rater of no other reason than that he was impressed through the persistent advertising of the manufacturer,

"The return of the bicycle to favor is a healthy sign. Its early popularity was largely a fashion or a fad, but to-day it is used because it combines invigence cause it combines invigence atting exercise, outdoor pleasure, and practical utility."

HARRISON GREY FISKE,

You can buy a Bicycle at most any price you care to pay, but what's the use? Half the time a cheap wheel is in the repair shop, and, when you come to figure it out it's a pretty expensive investment after all. Nor have you enjoyed the confort of wheeling as is possible to do to-day with a good wheel.

### **CLEVELAND BICYCLE**

The Cleveland sells at a price that covers the making of a thoroughly honest wheel. It is fully guaranteed. The Cleveland is equipped with the very latest of the new inventions that have done so much to make wheeling comfortably pleasant. The Cleveland is greater to-day than it was years ago and then it was considered the best.

## Two-Piece Suits

Now's the time to discard the vest and to cool off in one of our breezy Two Piece Suits.

The skill of the designer and tailor is evidenced in these Two-Piece Suits. They're made up to be as cool as clothing can be.

That means that the workmanship must be of the pest or the garments will not hold their shane

Some of the coats are only half lined, yet you'll find every coat will hold its shape well, and that service will only tend to prove the merits of its building.

The Suits are made of blue Serges and fancy Worsteds, Cheviots and Homespuns.

## The Survival of the Fittest **DUNLOP Automobile Tires**

The Straight Wall type of Automobile Tire is not a new thing. It was featured by the Dunlo, Tire Company in 1905, and the prediction was then made that it would be the tire of the future.

This Straight Wall tire is also variously called the "Non-Clinch," Straight Side," Straight Bead, or "Universal Quick Detachable Tire." As mean Straight Wall implies this Tire has no toe extensions—In ot team of the solid clincher or clincher detachable tire—has no projecting ends that fit in under a fixed, hooked shape also of the rim.

The Straight Wall tire cannot become comented to the rim. It is a readily detachable tire under all conditions, and at the same time it sets solidly and cannot alip or come off until the bead on the rim, that holds the tire in place, is removed.

### This Tire Will Not Rim Cut

Since 1905 developments have been fulfilling the claims for the Straight Wall type tire. It has finally made good on every count.

AS AN ADVERTISING MEDIUM

Canada is to-day experienc-ing an "American Invasion" in more ways than one-100,798 citizens of the United States moved here last year; but what is, perhaps, of more immediate importance to the Canadian business man is the fact that within a States industries have established branch factories in Canada. In almost every case these newcomers are advertisers. Against this form of competition Publicity, not Protection, must be the business man's defence.
